---

## PROFESSIONAL EXPERIENCE

### Appinion BD Limited

Jan 2023 - Present

#### Software Engineer

Turning Figma and Adobe XD designs into optimized, responsive websites with W3 standard codes. Creating fast-performing, SEO-friendly, cross-browser websites, and integrating APIs.

### Fiverr

AUG 2020 - Present

#### Front-end Developer and Client Communicatoin

Communicating with international clients and fulfilling their requirements by crafting pixel-perfect, responsive WordPress websites with optimized performance. Specializing in theme customization and page creation using popular page builders like Elementor, WPBakery, and Divi.

### JAAGO Foundation

AUG 2020 - OCT 2020

#### Web Developer Intern

During my internship, I demonstrated strong proficiency in web development, where I successfully built an e-commerce site, customized the official website, and optimized a sponsored school's site. My ability to collaborate seamlessly with cross-functional teams showcased both technical prowess and teamwork.
